**RECOMMENDATION LETTER FOR BRIAN MAKANDA REG/NO.
GEO/0489/22 OF MOI UNIVERSITY**

Brian was on attachment at the Directorate of Resource Surveys and Remote Sensing (DRSRS) from **May - August, 2024**. The Directorate's mandate is to generate, store, manage and disseminate geospatial information on land-based resources, conduct research, training and consultancy and advice the government on all aspects of Remote Sensing and geographical Information System (GIS).

During his attachment, he successfully covered Remote Sensing and Geographical Information System (GIS) in the following key areas:

- Image processing and analysis and their applications
- Use of QGIS, ArcGIS, ERDAS Imagine, Google Earth Engine and ENVI software
- Use of R studio, SQL, and Python programming languages

Project Title

Flood Risk Analysis for Nairobi County Using GIS and Web Map Application with Leaflet.

During his attachment, Brian distinguished himself as hardworking and a team player. I highly recommend him for any relevant assignment.

Hezron Otero
Head of Training
